Hi Kristen,

In order to incorporate the VAS data into S2C2s model in the format required for the Scribe database, it would be very helpful to get the electronic data deliverables from the laboratory (in Excel or CSV format). I've attached the PDF versions of two laboratory analytical reports from ESC Lab Sciences for Weston. If you already have the EDDs, that would be great if you could pass them on! Otherwise, if you could please put me in touch with your contact at Weston I will reach out to them and see if they can help.

Thank you!
